**Bear Creek SAC Agenda/Notes - 11/12/2019**

- **Introductions and Purpose of School Accountability Committee (Renee)**
  - Introductions/Icebreaker
    - *Attendance - Michael Bucey, Leigh Gannan, Jeff Harvey, Darcy Johnson, Jared Olson, Michi Sakurai, Renee Williams, Josh Zapin, Tanner Dayhoff, Beth Ellis*
  - Bear Creek SAC Membership
  - BVSD SAC Manual
  - Committee Needs:
    - Chairperson - Renee Williams
    - Recorder - OPEN
    - DAC Representatives - Michelle Estrella and Michi Sakurai
    - Community Representative - OPEN

- **Principal Report (Tanner)**
  - Bear Creek SAC Website
  - Open Enrollment process has started. Currently, we have:
    - KG - 44, 1st - 54, 2nd - 79, 3rd - 71, 4th - 82, 5th - 73, Total - 403
    - Best hope would be to open another section of 1st into 2nd. Take zero students for next year's 3rd and 5th grade. See about next year's 1st and 4th. KG is hard to predict. "Magical Number" is 350 students - many allocations are dependent on staying above this number.
  - Common Sense Parenting class was a huge success - 20-25 parents participated in a 6 week class. Looking at another class in the Spring.

- **DAC Report (Michelle and Michi)**
  - Notes from 11/5/2019
  - Tanner spoke about the 3SM process. Shared that Bear Creek will have high flexibility in selecting a problem of practice. Tanner shared that he has an idea of the direction we'll proceed in the 3SM process, but that he really wants work to be collaboratively completed with staff and SAC.

- **Introduction to Bear Creek Academic Data (Tanner and Renee)**
  - Sources of Data
    - BC Student Demographics from last 10 years
    - 3 years of School Performance Frameworks (CMAS ratings)
    - 3 years of CMAS Growth Scores
    - 3 years of iReady EOY Scores
    - Common Writing Assessment Data from 2018-2019
    - Tanner gave a brief overview of each of the reports being shared.
  - Break Into 2 Groups for “Data Dive” (Tanner in a group, Beth in the other)
    - What academic data stands out to you as a celebration point?
    - What academic data do you believe we need to work to better understand?
    - Is there academic data you’d like to see that you don’t have access to?
    - Tanner will review this feedback and share it with staff. Additional points of data, and Climate data, will be reviewed at next SAC Mtg.
